RE: Revised Closure Schedule for Charlotte Motor Speedway
Landfill V - Cells 1A & 1B: Permit No. 13-04.

Dear Mr. Barnard:

The Solid Waste Section has reviewed your letter dated 2 April 1997, requesting an extension of time to close the above referenced cells at the Charlotte Motor Speedway Landfill. The Solid Waste Section(the Section) approves of the proposed schedule that BFI Waste Systems(BFI) has outlined in the above referenced letter and approves of the proposed schedule, with a completion date of 30 April 1997. If for reasons beyond BFI's control, items addressed in the 2 April 1997 letter can not be completed in the proposed time frame; the Section shall be notified with an explanation provided for the delay, along with a revised time line. In the interim, BFI should maintain the existing cover and repair any erosion or damage done to the interim cover. If necessary, temporary seeding or mulch shall be applied to the area to minimize on-site erosion.

As a reminder, in accordance with Waste Management rules 15A NCAC 13B section .1627(c)(7) "following closure of each MSWLF unit, the owner or operator shall notify the Division that a certification, signed by the project engineer verifying that closure has been completed in accordance with the closure plan, has been placed in the operating record".
